A Journal of Fact and Opinion about Thoroughbred Racing and Breeding
Published 12 Times a Year • Annual Subscription U.S./Canada \$200
Michael S. Brown, Publisher • Pamela Rye, Editor • April D. Gaither, Managing Editor

Volume 22, Number 3

March 26th, 1999

A LAST (LONGING?) LOOK AT F95 STALLIONS

At one time, it was regarded as dogma by this and some other publications that the success or failure of a Thoroughbred stallion could not be accurately gauged until that stallion's oldest offspring had completed their four-year-old racing season, meaning that a stallion had three crops at the races. We now attempt to reject all dogma at this publication, especially in the face of the more strident dogma of the marketplace where 99.9% of Thoroughbred breeding now gains sustenance.

"The Market" is generally tougher on young stallions than we are. If a stallion doesn't get off to a relatively quick start with his first crop of two-year-olds and overlay that with a solid performance from his first three-year-olds, then that stallion is generally written off as "A Bust" by "The Market". Occasionally this publication does fall into the trap off writing off a stallion too soon. At no time, however, do we recall falling into a deeper, more perilous trap than we did in the case of KINGMAMBO, a horse we dismissed much too soon.

As the accompanying tables in this issue present, Kingmambo is currently the lifetime earnings leader among F95 stallions, those stallions whose oldest

foals are four-year-olds of 1999, through World-wide racing of Florida Derby week-end (Racing statistics courtesy of Bloodstock Research Information Services—brisnet.com). He's not simply the earnings leader among this group; his progeny earnings are *nearly double* the second-placed stallion on this list. We're unabashedly anti-asterisk, but we will mention that the majority of these dollars were earned by progeny racing in The Land of The Rising Sun, where maidens run for six figure purses. The Kingmambo's just *love* Japan.

So, how could anyone in their right mind dismiss Kingmambo in such a cavalier fashion? We freely admit to being much too hasty in our judgement. There were two reasons for this: Unproved Theory and Innate Prejudice. Hardly in the same league as Dickens's Ignorance and Want, but present all the same. The "Unproved Theory" has to do with all sons (and perhaps grandsons) of Mr Prospector who has been such a huge success as a sire-of-sires. This "Unproved Theory" holds that sons of Mr Prospector which are free of Northern Dancer on the bottom half of their pedigree have a better shot as stallions than sons of Mr Prospector which are out of

...Continued on page 2

Northern Dancer-line mares for the simple reason that Mr Prospector and Northern Dancer cross so well together. This is unproven, hence its name, and will probably remain so because of all the grey area involved.

The "Innate Prejudice" defense has to do with the Kingmambo's as individuals. They are, on the whole, quality, correct individuals, but we are hard-pressed to say with any degree of certainty exactly what a Kingmambo looks like. It is an old hardboot saw that a successful stallion will stamp his foals, but there are cases of successful sires which did not. This looks to be another one and having now thoroughly gorged ourselves on crow, we are prepared to jump off the roof.

It's also safe to say that the second crop of Kingmambo are better than the first, for whatever reason. He has solid Classic candidates on two (Western) Continents who are just getting warmed up, not to mention his third crop which will begin running in the months ahead. He looks a sire which is capable of getting the two-turn runners eligible to pick up so much prize money in North America, if nothing else.

It is also worth noting while in the process of removing our *derriere* from the sling, so to speak, that the Top Four stallions on this list now stand at two of Central Kentucky's most noteworthy farms: Lane's End and Vinery, with two each. Number Two among the F95 stallions at this point in time is GILDED TIME, a horse who made such a beautiful start to his stallion career and who may be currently regarded by the public at large as having gone a bit quiet. We believe that nothing could be further from the truth and we are tremendously pleased that there is such a fine young representative from the Damascus-line doing so well. He gets a most attractive, racy-looking foal that probably will not get the Classic trip, but can get 8-9 furlongs pressing the pace. If he has gone quiet, now's the time to jump on board, because this kind tends to come back with a vengeance.

We are prepared to say that Kingmambo's farm-mate, BELONG TO ME is one of the four or five best sires of two-year-olds currently at stud in North America and the sky is the limit following his relocation to Lane's End. A top sire of two-year-olds is a good thing to be in today's marketplace environment. MARQUETRY also gets a pile of two-year-old winners (from a mountain of foals) as well as a consistently good-looking foal; if anything, his class runners have been a bit scarce. MOUNTAIN CAT, at the never-fail Overbrook

Farm, has shown an admirable level of consistency for one so young and we thought that his third crop, two-year-olds of 1999, were his best physically yet. Shadeed is disparaged, but ALYDEED is the picture of things to come; he gets a classic American two-turn animal and his yearlings last year were likewise his best yet.

Sons of Alydar are probably overly criticised, but STRIKE THE GOLD escaped the fate of many with his expatriation to Turkey while the jury was still largely out. We still think it a shame that any Kentucky Derby winner should go so far away, but business is business. LINE IN THE SAND has made a big mark in Florida in a very fast way and he's yet another Mr Prospector who's disproving the "Unproved Theory" mentioned above. We always loved Cox's Ridge, the consummate American sire, but he didn't leave a son...until now, with SULTRY SONG, the sire of probable Kentucky Derby favourite Prime Timber. It should only get better from here on out. We always thought PERSONAL HOPE had the makings of a sire; he started well, then tailed off although if his 1998 yearlings were any indication, the best is yet to come.

There is always a surprise on these lists and perhaps the biggest one among the F95 sires is STORM BOOT. A very fast, close relation of the successful Topsider, he went to stud for a buck (\$1,000) and got nothing mares from which were produced winners and graded stakes horses. He's up to \$10,000 now and is still probably worth it, with commercial success to follow. FUTURE STORM already looks like the best Storm Cat in Florida. EXBOURNE looked like becoming the same type of sire his father was and then some. He had a huge heart. This can only be described as a workmanlike performance so far for FLY SO FREE, with over \$1.5-Million in lifetime progeny earnings thus far and no stakes winners.

BERTRANDO is the top California-based sire here and he too has a Classic prospect this year. He is but one example of the exciting young stallions currently available in California. Flying Paster has given indications of being a sire-of-sires, but what VYING VICTOR has accomplished thus far in Western Canada is nothing short of phenomenal. IS IT TRUE is only a F95 for North America; of course, his second Northern Hemisphere crop included Yes It's True, who had looked gutted, but came back well in the Swale. We were somewhat surprised to see PETESKI this far up; he was every inch a racehorse and they're obviously improving with age. GROOMSTICK has successfully carried his father's no frills act to Florida.

GOLD LEGEND has a big pedigree and no race record and looks to have carved a bit of a *niche*. FLYING CONTINENTAL has thus far gone in fits and starts, but he's going well at the moment with No Cal Bread. The sons and daughters of ROBIN DES PINS have rather quietly gone about earning over \$1-Million thus far. TECHNOLOGY may have left Kentucky too soon, but in actuality, he's probably the perfect horse for the mid-Atlantic. LIL E. TEE just will not go away; he has a hot Derby prospect in Arkansas. MISSIONARY RIDGE was a galloper and that appears to be what he is getting.

CARTWRIGHT has been pretty good news in an Illinois environment which is on life support. CHIEF HONCHO expired before his best was shown. COMPELLING SOUND may be knocking on the door in Maryland. FREE AT LAST is another horse in Western Canada who has done well. GOLD SPRING was fast and has never stayed in one place for very long. LATIN AMERICAN hasn't had much opportunity, but did get the hard-knocking Waki American. NOW LISTEN is another who has moved around a lot. RICHMAN's probably getting more Quarter mares than anything. VERMONT hasn't done at all bad. WOLF is also in Turkey.

In Europe, briefly: TENBY didn't last long in England, which is sad considering the relatively recent death of his dad; these earnings are, like Kingmambo's, due to his Japanese runners where he now resides. ZAFONIC looks the true King here, giving hope to "Sons of Gone West Lovers" everywhere; he already looks like one of the top two or three sires of quality two-year-olds in Europe and we have a suspicion that they'd go well here, if any were to get the chance. LION CAVERN is, of course, Gone West's brother and he too started a bit slowly, but is rapidly making up ground. BRIEF TRUCE is now obviously the heir to his perpetually under-rated father. HAMAS has fallen down the table a bit but can still get a cracking two-year-old. PIPS PRIDE looks another useful outcross stallion. PLATINI looks well-placed with his German earnings, where two-year-olds aren't emphasised.

GLUT OF NEW STALLIONS LEADS TO OPPORTUNITY *EVERYWHERE!*

There are already some 50 new stallions retiring to stud in Kentucky alone in 1999 and, in marked contrast to the early 1980's, the mare population has not kept up with the sire demand. These Kentucky studs want it and they want it now! In many cases, especially among the older, more established stallions, seasons are selling for under farm price. Now comes the late news that early 1999 Kentucky Derby favourite Exploit is through and is retired (Zeus knows where). Since he's new and exciting (despite the fact that he's a half-brother to the iffy Prized), he'll no doubt get 50 mares even at this late date.

That having been said and further given our preference (or is it prejudice?) for older, proven sires, there are several new sires for 1999 who we quite like. After all, you have to start somewhere.

ACCEPTABLE looked like the goods late in his two-year-old year and early on at three, but like so many Capote's didn't really go on. Still he's the best thing yet from a Woodman mare and he's from a sire family. ALLIED FORCES is a handsome horse with real ability from a family which has been reheated in the microwave. We can't say this loudly enough: "*WE LOVE ARCH!*" We never saw the best of him; he's from a top family and he's unbelievable value. Adena Springs have two new sons of Deputy Minister with plenty to recommend them. AWESOME AGAIN has a more versatile pedigree and TOUCH GOLD, on his day, had an absolutely devastating turn of foot.

BANKER'S GOLD should be able to capitalise on the Forty Niner craze; it's a quality family as well. CAPE TOWN may be the best value sire to go to stud in Kentucky in the last decade; we absolutely *love* his chances. New York breeders could look smart in a few years by using CHILITO now; he may well have been the best entire son of Strawberry Road. CONCERTO could look like a steal if his brother Wandertross replicates his Florida Derby form down the line. In five or six years, CONFIDE could look like the better play than the other new Phone Trick at Walmac, FAVORITE TRICK. CORONADO'S QUEST has every right to become a major, major stallion. DANCE BRIGHTLY possesses a major Canadian sire's pedigree.

DEPUTY COMMANDER is very well-priced for a major son of Deputy Minister; he's free of Mr Prospector. DISTORTED HUMOR had a major kick. FANTASTIC FELLOW could become Lear Fan's lawful heir. FRISCO VIEW was a pretty smart sprinter on his day; he's bred on the magic Mt Livermore/Great Above cross. GENTLEMEN is a gorgeous horse whose breathing problems of 1998 should not be held against. GOLD TOKEN had a "Mystery Fee" until recently; he's \$5,000.

There was never anything wrong with GRAND SLAM other than perhaps a confused adolescence during his disjointed three-year-old year; that should not be held against him at stud. HALORY HUNTER's mother is hot, hot, hot (Would you let anybody talk about your mother that way?). We would actually give INDIAN CHARLIE a shot, if he could just manage to keep his mouth shut. JAKE IS JAKE in Arkansas. KING OF KINGS doesn't really hail from the strongest sire family in the books. LABEEB could be goofy, but he had real ability.

ORDWAY was only a couple jumps away from being Champion two-year-old; that, combined with his sire family, is a whole lotta horse for a five-spot. PARTNER'S HERO looks like another patented Northview play. RAFFIE'S MAJESTY could well be the rightful heir to his dad in New York. SCATMANDU could surprise. SKIP AWAY was the proletarian favourite but he was no Holy Bull. SUBORDINATION was one of the most versatile runners of recent memory; that should serve him in good stead at his good value price. If they would only give us about 25 seasons to SWAIN we'd use them all; he's that good and time will show that.

By the end of the day, TALE OF THE CAT really didn't know if up was down or if black was white; he had tremendous ability and we love his chances. He's probably the second-best looking sales son of Storm Cat ever. It looks as if Easy Goer would have been the sire son Alydar fans waited for; with his family and his obvious ability, it would appear that WILL'S WAY will be the grandson that Alydar fans would want.

CORRECTING OURSELVES & ADDENDUMS

In a gross oversight for which we were thankfully reminded by Francis Vanlangendonck of Florida's Summerfield, we omitted ROBYN DANCER from our list of good value sires from our last issue. Robyn Dancer is a very good-looking son of Crafty Prospector who emulates his sire in sending out bushels and bushels of stakes winners, seven in 1998 alone. This makes him easily one of the leading sires in Florida and one of the best value sires anywhere. Our apologies for this oversight and omission.
